SEBASTIEN LATO

Summary

Bilingual software-focused developer with strong foundations in computer science, algorithms, UI and UX, and multimedia development. Brings adaptability, discipline, and leadership from more than a decade of service in the Canadian Armed Forces. Experienced in mobile development, modern web technologies, and creating clean, maintainable interactive experiences.

Work Experience

Crew Commander and Systems Operator — Canadian Armed Forces 2003–2016
- Led mission planning, team coordination, and high pressure operational decisions.
- Operated surveillance and monitoring systems with real time data interpretation.
- Managed personnel training, workflows, and overall operational readiness.

Cooperation Director — Phase 1 Fitness and Tanning Center 2014–2016
- Managed staff scheduling, customer operations, and day to day facility oversight.
- Coordinated administrative work and workflow to keep service delivery smooth.

Education and Certifications

- Certificate in Computer Science, Universite du Quebec a Trois Rivieres (2021–Present)
- AEC in Software and Mobile App Programming, Cegep de Shawinigan (2019–2021)
- High School Diploma, Polyvalente d'Anjou

Projects

- Mobile App Development: Multimedia based interactive iOS applications.
- Web UI Systems: Responsive interfaces, animations, and reusable UI components.
- Algorithmic Work: Efficient data structures and optimized algorithms.

Technologies and Languages

- Programming: Python, Java, JavaScript and TypeScript, Swift, C#
- Web: HTML and CSS, React, Next.js, REST APIs
- Concepts: Object oriented programming, data structures, algorithms, UI and UX, databases, networking
- Tools: Git, GitHub, VSCode, Xcode, Linux
- Languages: French (native), English (fluent)
